1. Introduction

Thank you for using our product.

This plugin works in the following environments:

- **Supported OS:** macOS / Windows
- **Supported Formats:** AU (macOS only), VST3 (macOS / Windows)

Some DAWs may have limitations. Please check our official website for the latest compatibility information.

2. Installation

macOS

1. Launch the downloaded installer (.pkg file).
2. Follow the on-screen instructions to complete the installation.
3. You may be asked for administrator privileges; enter your password if required.

Windows

1. Extract the downloaded ZIP file.
2. Copy the BatSaturator.vst3 folder into the following directory:
C:\Program Files\Common Files\VST3\
3. If Windows prompts you for administrator privileges during the copy, please allow it.

3. Installation Locations

- **macOS**
 - AU: /Library/Audio/Plug-Ins/Components/
 - VST3: /Library/Audio/Plug-Ins/VST3/
- **Windows**
 - VST3: C:\Program Files\Common Files\VST3\

(If you copy it manually under user permissions, you may also place it in a

custom folder, but the above path is recommended.)

4. Uninstallation

- **macOS**

Open Finder and delete <ProductName>.component or <ProductName>.vst3 from the folders above.

To remove the license file as well, delete:

~/Library/Application Support/BlackArtsTechs/
<ProductName>/License.json

- **Windows**

Open File Explorer and delete <ProductName>.vst3 from the folder above.

To remove the license file as well, delete:

%APPDATA%\BlackArtsTechs\<ProductName>\License.json

5. License and Activation

- **Demo Version:** Some limitations apply (noise insertion, watermark display, etc.).
- **Full Version:** Enter your serial key and email address to unlock all features.

For detailed instructions, please refer to the “Activation Guide”.
